Dear Customer,

Fangio Lighting has been producing lighting for the furniture, lighting showroom, contract, and hospitality industry for the past thirty years. We manufacture our lamps & lampshades to meet the highest standards of quality and durability for residential and commercial applications.

All our products are UL approved and tested in our facilities. Our lamps are assembled in the U.S.A., in our factory under our own quality control standards and specifications, or imported directly from China, under the same specifications. We have our own office in China to manage our quality control and follow our specifications thru production.

In addition to our 30,000 Sq ft facility in Pennsylvania, we also operate a ceramic production facility in Mounds, Illinois, which has been producing ceramic and resin for over 30 years. We occupy a 22,000 Sq ft facility with the capabilities of up to 4,000 pots on a weekly basis. All together, we have over 2,000 molds.

We have permanent showrooms in both High Point. and in Las Vegas. We also have a sales office in New Jersey and over 20 independent sales representatives throughout the country.

We can take your project from concept design to completion all under our control in our facilities. We can do priority items for you to offer exclusively. We do hand finishing as well as custom colors on all of our products.

We welcome your requests and inquiries. We hope we have the opportunity to help you in the future with all you lighting needs.

Sincerely,

Martin Fangio, President
